

**Zoning Ordinance Approval
CITY OF AUSTIN
RECOMMENDATION FOR COUNCIL ACTION**

**AGENDA ITEM NO.: 31
AGENDA DATE: Thu 02/10/2005
PAGE: 1 of 1**

SUBJECT: C14-04-0071 - Approve third reading of an ordinance amending Chapter 25-2 of the Austin City Code by zoning property locally known as 8423 State Highway 71 West. (Williamson Creek Watershed-Barton Springs Zone) from interim-rural residence (I-RR) district zoning to neighborhood commercial-conditional overlay (LR-CO) combining district zoning. Council approved limited office-conditional overlay (LO-CO) combining district zoning at Second ordinance reading. Conditions met as follows: Conditional overlay incorporates the conditions imposed at second ordinance reading. Second reading on December 16, 2004. Vote: 6-0, McCracken off the dais. First reading on September 2, 2004. Vote: 7-0. Applicant: City of Austin. Agent: Neighborhood Planning and Zoning Department. City Staff: Glenn Rhoades, 974-2775.

REQUESTING Neighborhood Planning
DEPARTMENT: and Zoning

DIRECTOR'S
AUTHORIZATION: Greg Guernsey

THIRD READING SUMMARY SHEET

ZONING CASE NUMBER: C14-04-0071

REQUEST:

Approve third reading of an ordinance amending Chapter 25-2 of the Austin City Code, zoning the property locally known as 8423 State Hwy 71 West from interim - rural residence (I-RR) district zoning to limited office-conditional overlay (LO-CO) combining district zoning. The conditional overlay as approved by the City Council, limits motor vehicle trips on the property to a maximum of 2,000 per day. The agent for the property owner is requesting neighborhood commercial-conditional overlay (LR-CO) combining district zoning, with the conditional overlay prohibiting a service station use.

DEPARTMENT COMMENTS:

At the September 2, 2004 hearing, Council requested that the applicant speak with the adjacent property owners and see if a compromise could be reached. The condominium association to the south indicated that they were content with staff's recommendation of LO, and opposed to the applicant's request of LR. The owner of the single-family home to the southwest was originally opposed but has since told staff that he was not opposed to LR-CO, prohibiting service stations. However, at this time staff does not have a letter indicating support for LR-CO.

HISTORY:

On May 15, 1985, Mr. Dement submitted a zoning application for the property, seeking a zoning change from I-RR to LO zoning. At that time, the Oak Hill Area Study was going through the process and the owner agreed to zone the property with other properties affected by the City initiated area study. As evidenced in a City Council case, the Austin City Council approved LO on first ordinance reading. At the time, the subject tract was recommended by staff subject to conditions that limited the property to a maximum floor to area ratio of .25 to 1, a maximum impervious cover of 40%, a limitation of one curb cut on Hwy 71 and compliance with the Williamson Creek Watershed regulations. Although Mr. Dement signed a restrictive covenant agreeing to the conditions, it was misplaced and the case never went forward for second and third readings. Staff therefore has agreed to initiate this case with the Zoning and Platting Commission's direction, on behalf of the property owner in order to complete the zoning that was approved on first reading in 1985.

Although the original request was for LO zoning, the property owner requested that staff notify for LR, neighborhood commercial zoning for the property. Staff posted and notified for LR. However, according to the Council adopted Area Study, the subject tract was recommended for office use.

At this time according to current Geographic Information Systems (GIS) maps, the entire site is within the 100-year flood plain (see attached flood plain map). Over four years ago the Oak Hill Regional detention facility was constructed by the City of Austin and the area is going through a reassessment of flood plain impact in this area. The property owner is currently working with the City of Austin to determine if the Oak Hill Regional detention facility has had any affect on the subject tract. The zoning staff is still waiting for information as to whether or not flood plain has been reduced on the property. This case was before Council on October of 2002, but expired due

to the study not being completed. The property owner has requested to move forward with the case even though the assessment is not done.

Staff has received a letter from the Valley View Condominium Association to the south in support of staff's recommendation of LO. In addition, they have requested that the applicant agree to a 25-foot setback along the south property line. However, after looking at compatibility, it appears that the applicant will be required to have a 25-foot buffer regardless.

APPLICANT: City of Austin

AGENT: Neighborhood Planning and Zoning Department (Glenn Rhoades)

DATE OF FIRST READING/VOTE:

September 2, 2004 – Approved limited office-conditional overlay (LO-CO) combining district zoning on first reading (Vote: 7-0).

December 16, 2004 – Approved limited office-conditional overlay (LO-CO) combining district zoning on second reading (Vote: 7-0).

CITY COUNCIL DATE:

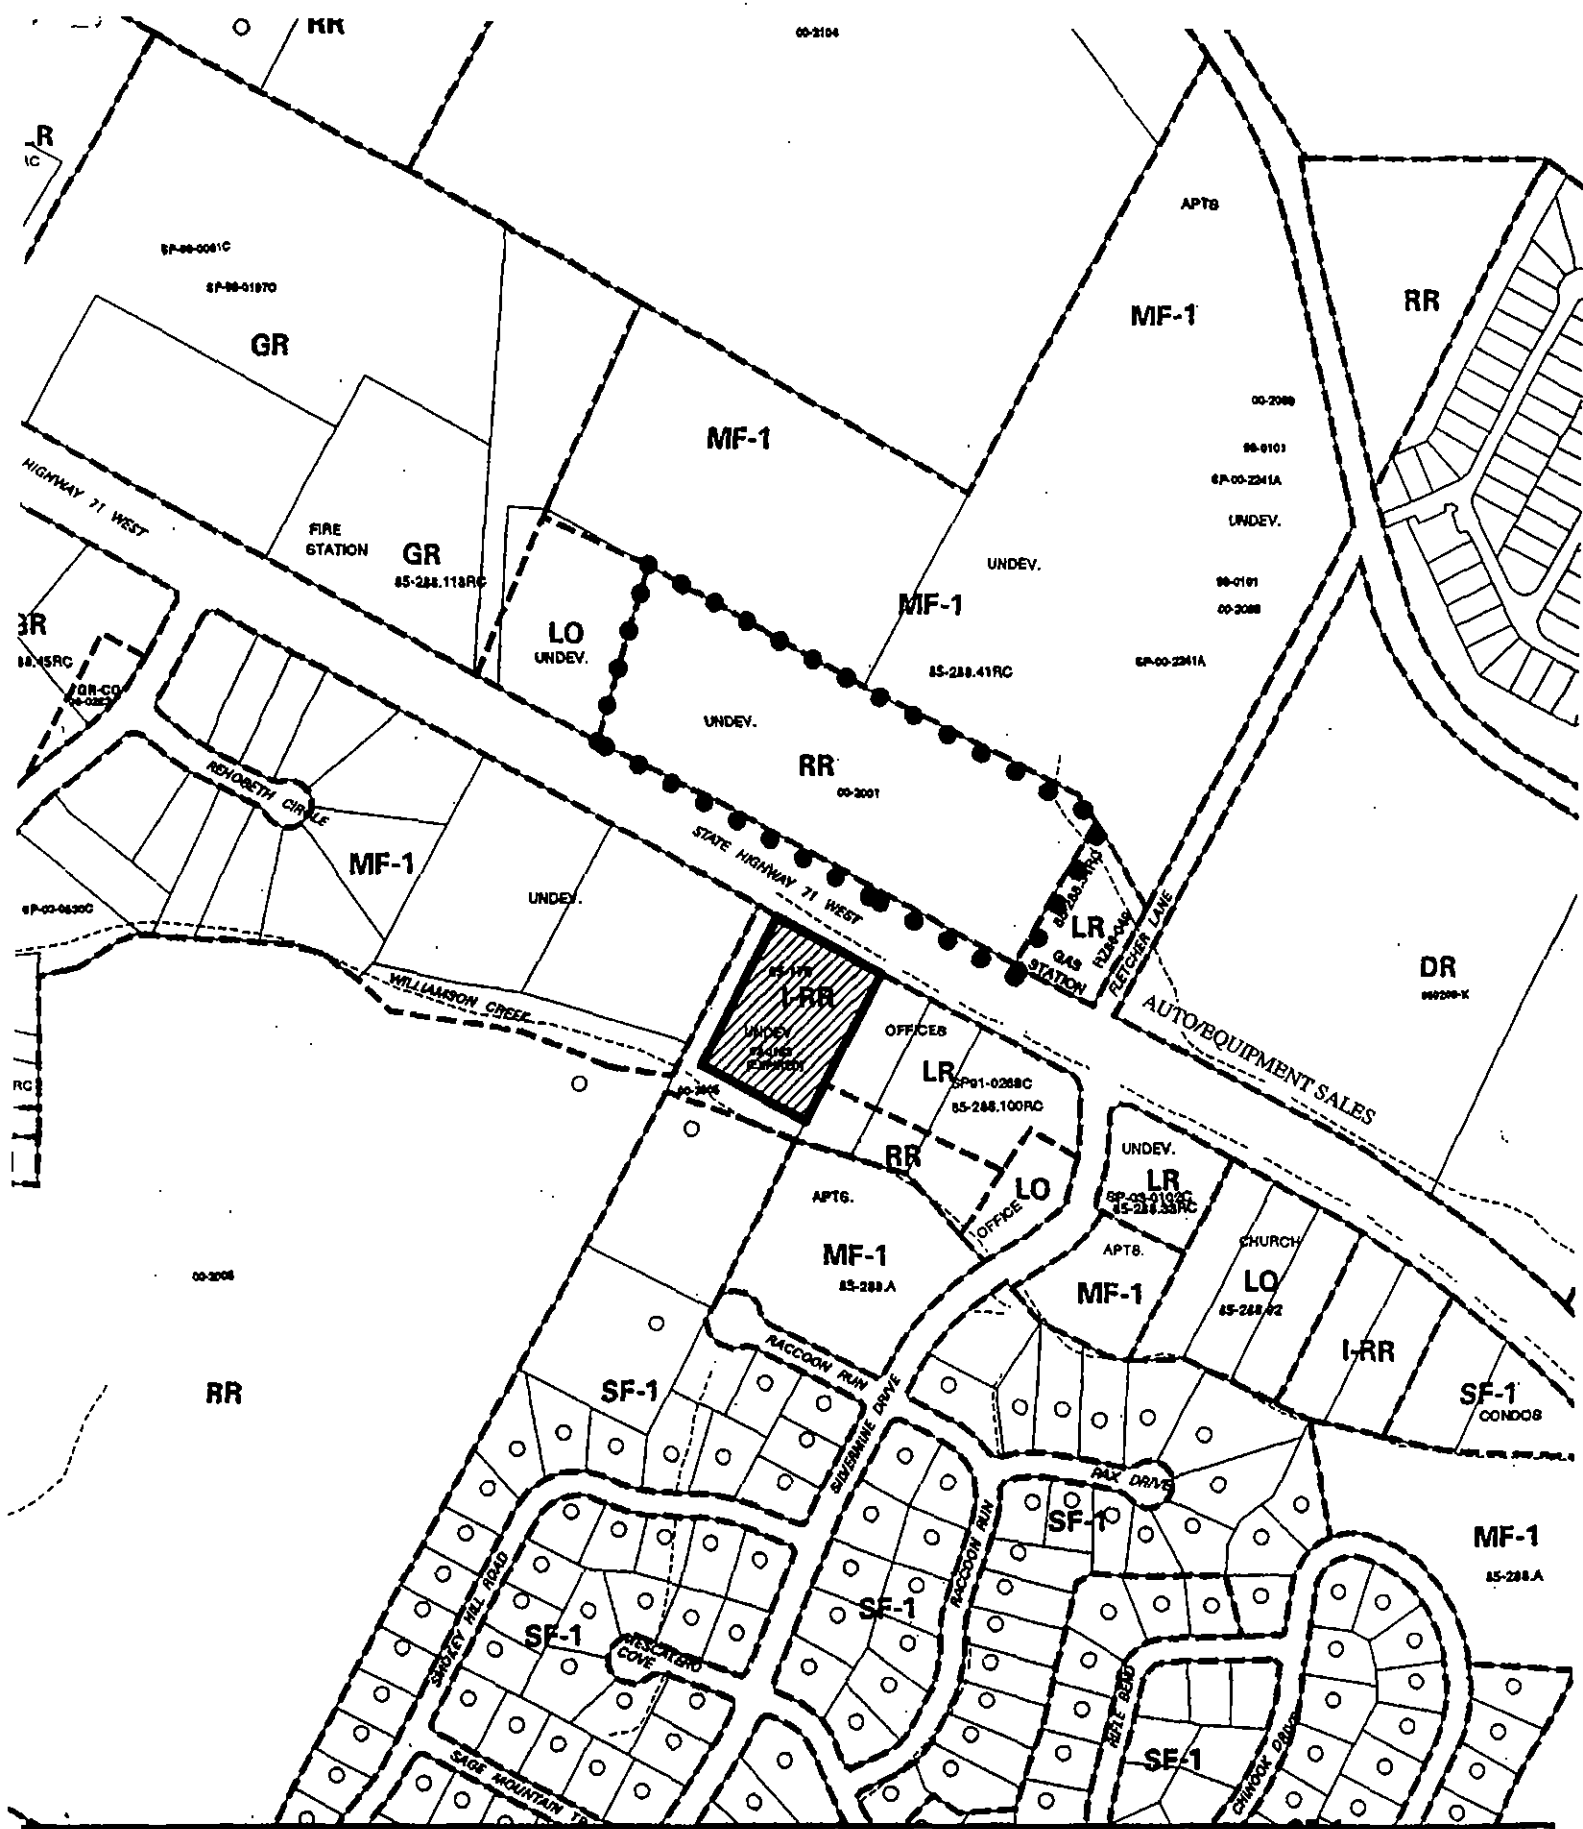

September 2, 2004 – Approved LO-CO on first reading. .

December 16, 2004 – Approved LO-CO on second reading.

February 10, 2005 -

ORDINANCE NO. _____

1 AN ORDINANCE ESTABLISHING INITIAL PERMANENT ZONING FOR THE
2 PROPERTY LOCATED AT 8423 STATE HIGHWAY 71 WEST AND CHANGING
3 THE ZONING MAP FROM INTERIM RURAL RESIDENCE (I-RR) DISTRICT
4 TO LIMITED OFFICE-CONDITIONAL OVERLAY (LO-CO) COMBINING
5 DISTRICT.
6

7 BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:
8

9 **PART 1.** The zoning map established by Section 25-2-191 of the City Code is amended to
10 change the base district from interim rural residence (I-RR) district to limited office-
11 conditional overlay (LO-CO) combining district on the property described in Zoning Case
12 No.C14-04-0071, on file at the Neighborhood Planning and Zoning Department, as
13 follows:
14

15 Lot 1, Oak Bridge Subdivision, a subdivision in the City of Austin, Travis County,
16 Texas, according to the map or plat of record in Plat Book 87, Pages 52A and 52B,
17 of the Plat Records of Travis County, Texas (the "Property")
18

19 locally known as 8423 State Highway 71 West, in the City of Austin, Travis County,
20 Texas, and generally identified in the map attached as Exhibit "A".
21

22 **PART 2.** The Property within the boundaries of the conditional overlay combining district
23 established by this ordinance is subject to the following conditions:
24

25 A site plan or building permit for the Property may not be approved, released, or
26 issued, if the completed development or uses of the Property, considered cumulatively with
27 all existing or previously authorized development and uses, generate traffic that exceeds
28 2,000 trips per day.
29

30 Except as specifically restricted under this ordinance, the Property may be developed and
31 used in accordance with the regulations established for the limited office (LO) base district
32 and other applicable requirements of the City Code.
33

Convict Hill Shopping Center to be slated for destruction

Business owners told to make plans to vacate

by Jim Haviland

OAK HILL—TxDOT is making plans in coming months to begin demolishing business buildings in the Convict Hill Shopping Center, and tenants have been notified they will have to vacate in coming weeks.

When the Gazette first reported these plans last year, some business owners were reluctant to believe it would ever actually happen.

Don Nyland, an area engineer for TxDOT (Texas Department of Transportation) said the shopping center buildings as well as Serrano's Restaurant would be torn down to make way for a frontage road and a water detention pond at U.S. Highway 290 West near William Cannon Drive. Planning is underway by TxDOT to extend the

Project Update

290 West expressway through Oak Hill as a toll road.

"I knew this demolition of the Convict Hill Shopping Center was coming," said Cliff Anderson, a vice president of OHAN (Oak Hill Association of Neighborhoods),

"but hadn't heard the tenants in this shopping center had received notifications they will have to leave.

"I really liked the old western facade on the buildings in that shopping center," Anderson added. "It would be great to keep that character if these businesses could be relocated in some other part of Oak Hill."

Mike Tovar, owner of Lone Star Cellular, said he received a notice from the landlord that he will have to move.

"No official date was given for getting out," he told a Gazette reporter. "The closest date we got was around March 1."

Tovar said he understands that similar notices went to owners of about 10 businesses now operating in the shopping center.

Oak Hill groups work to keep Freescale Semiconductor

by Jim Haviland

OAK HILL — The Oak Hill Business & Professional Association is making a big push to keep Freescale Semiconductor Inc., a Motorola spin-off company, from moving its corporate headquarters—located in Oak Hill—away from Austin.

David Schwartz, a former OHBPA president, told organization members at their luncheon meeting Thursday (Jan. 6) at GattiTown of the importance of keeping the Freescale corporate headquarters in Oak Hill.

Meanwhile, Cliff Anderson, a vice president of OHAN (Oak Hill Association of Neighborhoods), said organization members are expected to discuss the impact of

Austin Community College's Pinnacle campus in Oak Hill off U.S. Highway 290 West.

Freescale, which went public in July, is one of Austin's largest employers. It also is one of the region's three Fortune 500 companies.

The Freescale plant, which makes computer chips, also isn't far from where TxDOT (Texas Department of Transportation) is planning to construct U.S. Highway 290 West frontage roads as well as continue the express lanes through Oak Hill as toll roads. When Motorola formerly had the plant in Oak Hill it was concerned about the extension of the 290 West Expressway through Oak and the possibility that heavy construction nearby could cause vibration

escalate into staying here in Oak Hill in the City of Austin," Schwartz emphasized.

Anderson indicated that a move by Freescale from Oak Hill could pose serious problems for the local community.

An OHBPA member with a high tech background, who didn't want his name used, told a Gazette reporter that moving Freescale's corporate headquarters from Austin could ultimately result in its local plants, including the one in Oak Hill, also being moved away from the capital city.

This member pointed out reports that Freescale wants to build a new facility to manufacture a new type "lineage" chip expected to have significant significance in the high

Curley's IPEC FIRE

LOOK FOR CURLEY ON 290
ON THE PROPERTY OF

Hwy. 290 - from p. 5

Another longtime Oak Hill business, Heartstrings, a craft shop, confirmed that they had received a notice similar to the one that Tovar got.

"I knew this would happen eventually," said Tovar, "but didn't expect it to come this quickly. We haven't seen anyone working around the 290 West highway to indicate this would happen so soon. Everything is up in the air about it. I know now I'll have to find a new place for my business. I'd like to be able to stay here in Oak Hill, but don't know if that will be possible."

Tovar said he understands that Serrano's Restaurant, located nearby, also will be taken down to make way for 290 West improvements.

"That restaurant was damaged by a fire just before Christmas and hasn't been open since," he explained.

Betsy Priest told a Gazette reporter that her lease for the Convict Hill Shopping Center ran out recently.

"It now reverts to the owner," she said, "who is an elderly woman who is in a nursing home in the Dallas area."

Priest said she understands that letters had been sent to people operating businesses in the shopping center notifying them that they would have to move out because of construction plans TxDOT has for the property.

Priest said she too had heard mention of a possible date around March 1 for the buildings to be vacated, but believes the tenants haven't received formal eviction notices yet.

"We need to tear these building down in the strip shopping center to make way for the frontage road and a needed water retention pond," Nyland told a Gazette reporter. "We'll begin tearing them down as soon as they be-

come empty."

Nyland confirmed that Serrano's Restaurant building is one of the structures scheduled to be torn down.

In December, Bob Daigh, chief engineer for TxDOT in the 11-county Austin region, said that public meetings would be conducted this year with interested people in the Oak Hill area to go over designs for the U.S. Highway 290 West toll road that will be constructed through Oak Hill. At that time, he told a Gazette reporter a construction schedule hasn't been set yet for this project.

Anderson, the OHAN vice president, said he hadn't heard any specifics about public meetings concerning the proposed toll road design. "All I've heard," he reported, "is that the meetings could be this spring or early this summer."

Daigh previously said the discussions would be mostly on "sensitive aesthetics" of the toll road designs, which hadn't been completed yet. One of these "sensitive aesthetics" is likely to be the fate of the ancient pecan tree surrounded by Serrano's. Local community groups have cited the historic importance of the tree to the community and have called for it to be spared.

Last summer, Austin Mayor Will Wynn, a director of CAMPO (Capital Area Metropolitan Planning Organization), said he was sympathetic to the fears of local Oak Hill residents about the design of the 290 West toll expressway through the community with possible soaring flyovers splitting Oak Hill in two.

Some local residents fear that an elevated toll road might become known as "the Great Wall of Oak Hill" and could seriously impact the community's viability.

County assessor warns of homes:

Area homeowners should beware of letters stating "IT APPEARS THAT YOU ARE OVERPAYING YOUR PROPERTY TAXES". Dozens have contacted the tax office over the past two weeks to inquire about letters they received. The letters come from businesses listing Austin and Dallas in their return address. The businesses offer to file a residence homestead exemption and they charge fees ranging from \$35 to \$55.

"There is no fee to file a residence homestead exemption and I urge homeowners to contact the tax office if they have any question about their property exemption status," says Nelda Wells Spears, Travis County Tax Assessor-Collector. "If a homeowner does not have an

exemption on file and appear qualified, we will assist their application process," she added.

The residence homestead exemption reduces the taxable value of property and effectively lowers the amount of taxes paid. Homeowners are qualified if they occupy the residence on January 1 of the year. The amount of taxes on a home located in central and valued at \$175,000 is \$446. With the residence homestead exemption, the amount of taxes would be \$4316; the savings is \$446.

Austin homeowner E. Sledge contacted Travis County authorities after receiving solicitations. Mr. Sledge stated the letter looks like a government

Remarks: Greg/Glen - Attached is still more info regarding displaced businesses along 290/71 in Park Hill. This is even more reason to approve LR for the subject tract considering the impact of the toll roads. Turning the subject tract to LR will provide greater flexibility for these displaced businesses. Otherwise, instead of relocating closer to the 290/71 intersection, the business' will be forced to relocate further out, increasing drive distances and putting more development deeper into the Austin-Cedar-Riverside Contributing Zone.

Will CAMPO go on MoPac toll?

William Cannon Drive?
 That is the big question for many
 east of Southwest Austin, in-
 cluding those residing in the Oak
 Hill area and the Circle C Ranch de-
 velopment. They have been express-
 ing their anger for months over this

short 1.4 mile section because they
 feel the toll would represent a double
 tax on this roadway construction
 project that began before the Central
 Texas Regional Mobility Authority
 (CTRMA) even announced its \$2.2
 billion toll road plan.

Although no specific toll num-
 bers have been adopted yet, the toll

amount used by the CTRMA as a
 planning figure was 50 cents.

Local residents will be anxiously
 watching to see what action is taken
 on this controversial toll span by
 CAMPO (Capital Area Metropolitan
 Planning Organization) when it
 meets Monday at 6 p.m. in the
 Thompson Conference Center on

the University of Texas campus near
 the Lyndon B. Johnson Presidential
 Library.

Another key vote could be on
 proposed moratoriums for collect-
 ing tolls on toll roads now being
 constructed along Highways 71 and
 183 in the direction of the Austin-

This is TxDOT's model for the 290 project at the Y as it stands
 now. It is thought that the overpass lanes will be toll lanes.

Some say toll lanes may hurt local businesses

by Jim Haviland

OAK HILL -- While work is
 progressing to get the U.S. Highway
 290 West right-of-way ready to
 build frontage roads through Oak
 Hill and prepare for extending the
 expressway as a toll road just beyond
 FM 1826, a CAMPO director and an
 anti-toll activist said the plans they
 saw show an elevated toll way above
 the frontage roads. And claimed it
 could affect local businesses.

"The TxDOT drawings showed
 the toll way will be elevated with
 ramps and loops," said Sal Costello,
 the anti-toll activist who organized
 Austin.TollParty.com. "The toll
 roadway goes up and down and
 seems a lot like a roller coaster."

"It looks like they'll overbuild
 it as it comes into Oak Hill," said
 Costello. "It's an absurd set-up and
 isn't pretty. They'll split it into dif-
 ferent sections and Oak Hill won't

Continued on page 11

Monday meeting:

Directors of CAMPO
 (Capital Area Metropolitan
 Planning Organization) will
 meet at 6 p.m. Monday
 (Jan. 24) at the Thompson
 Conference Center on
 the University of Texas
 campus near Red River
 Street.

Estimated tolls:

While the Central Texas
 Regional Mobility Authority
 hasn't voted to set toll rates
 yet, there have been estimated
 planning numbers for tolls:

- Loop 1 (MoPac) South
 by William Cannon Drive in
 Southwest Austin -- 50 cents
 for the short 1.4-mile stretch.
- U.S. 290 West through
 Oak Hill -- 35 cents per mile
 or \$1 for the entire 2.8 mile
 toll way.
- SH 45 from west of Bliss
 Spiller Road from Loop 1
 (MoPac to FM 1626) -- 31
 cents a mile or \$1.10 for the
 whole trip.

Teachers get National Certification

by Caroline A. Shearer

OAK HILL -- Seven area teachers
 in the Austin Independent School
 District recently achieved their
 National Board Certification, a

their subject matter knowledge, pro-
 vide evidence that they know how
 to teach their subjects to students
 most effectively and demonstrate
 an ability to manage and measure

monitoring AISD National Board
 candidates.

Tolls - from p.1

exist any more as it does now.

"As a result of this highway construction some Oak Hill businesses won't exist any more," he claimed. "They're hoping people will build the businesses back up. But who would want to do that. Instead, some of the other surviving businesses probably will pick up and move elsewhere."

Precinct 3 Commissioner Gerald Daugherty in Travis County, a CAMPO director, said his look at the TxDOT drawings showed the toll way will be elevated as it goes through Oak Hill.

"There will be flyovers and ramps," he said, "and it will affect some businesses now in Oak Hill. You'd have to be brain damaged not to recognize that. But although it will be an elevated highway, I don't see it dividing Oak Hill."

"The toll road construction will be a liability to some businesses in Oak Hill," said Daugherty. "That's inevitable when you're building a toll road to do away with the present 290 West congestion. The major concern is moving traffic. You can't have it both ways."

The Precinct 3 commissioner said motorists driving the new 290 West toll way as through traffic to avoid the signal lights probably won't get off in Oak Hill to shop and do business, obviously hurting some local businesses.

He recalled the building of a Highway 71 bypass in LaGrange and the changes it brought to that community.

"With most motorists now taking the bypass," Daugherty said, "the old 71 roadway in LaGrange has become a ghost town."

"An elevated toll road will kill business in Oak Hill," predicted Ross Hodges, a Circle C neighborhood advocate and a director of People For Efficient Transportation.

He said current TxDOT plans call for an elevated toll road near where Serrano's Restaurant was located, with one part of the toll road turning at Highway 71 and going out to near where the Sonto restaurant is located.

Hodges said he understands some members of OHAN (Oak Hill Association of Neighborhoods) are interested in trying to get TxDOT to change this so all the toll highway elements aren't elevated.

"They're hoping this might save some of the local businesses that might otherwise have been driven off," said the director of People for Efficient Transportation.

Hodges said OHAN members might try to get Oak Hill Business and Professional Association members to work with them on this effort.

02/03 '05 10:18 NO. 121 03/05

512 4761315

MINTON BURTON

Oak Hill Gazette Friday, January 21, 2005... 11

Some local residents have expressed fears that the elevated toll road might become known as "the Great Wall of Oak Hill" and could seriously impact the community's viability.

Daugherty, Costello and Hodges gave their comments on the planned toll way through Oak Hill as pre-

liminary work continued this week to prepare a portion of Oak Hill for the coming construction.

Crews from Austin Energy continued with their work to move back utility poles to prepare for the frontage roads and toll lanes, with some of their work highly visible by the intersection of 290

West and Highway 71 to the heart of Oak Hill.

Meanwhile, work commenced to tear down Serrano's Restaurant near the Convict Hill Shopping Center which had been damaged by a fire just before Christmas and no longer was open for business.

There was no immediate word on

whether a historic huge pecan tree at the restaurant would be saved or cut down.

Business operators in the shopping center earlier this month received word they would have to vacate their buildings by around March 1. Indications are that not

RE: Case No. C14-04-0071
8423 W State Highway 71

Dear Mr. Rhoades:

The 68 condominium owners who are members of the Valley View Village Condominium Homeowners Association have asked me to express to the City our collective concern about the captioned request for rezoning filed by Dennis Dement. We certainly recognize Mr. Dement's need to make productive use of his property, but we are concerned about potential adverse impact both on the surrounding residential neighborhood and on Williamson Creek which is of course adjacent to the property.

It should be noted that the intensity of uses on the south side of Highway 71 is much less than it is on the north side of the highway. At a minimum, that is a situation that needs to be preserved.

We support the City's recommendation of LO classification for the property, rather than the LR classification which was originally requested. In addition, we strongly request that a requirement be imposed for a 25-foot vegetative bumper along the creek at the rear of the property. Such a bumper would protect the wildlife along the creek, provide noise abatement, and help to preserve the residential character of the surrounding neighborhood.

Thank you for your attention to our concerns.

Sincerely,
Valley View Condominium Homeowners Asso.

RE: 8423 Hwy. 71 West
Rezoning from RR-1 to LR
COA Case No. C14-04-0071GR

Dear Mr. Rhoades,

As owner of properties along Hwy. 71 in the Covered Bridge Subdivision immediately to the west of the Dement Tract described in Zoning Case No. C14-04-01GR, I am not in support of the rezoning of the subject tract to LR-Neighborhood Commercial without any (many) conditional overlays. I have spoken to Dennis Dement and I believe that with some extra time some conditional overlays with LR can be achieved, otherwise I would support LO. This portion of Hwy. 71 is in need of both office and retail sites to accommodate the current commercial uses along Hwy. 71 and Hwy. 290 that are being displaced by impending highway improvements in the Oak Hill area.

Please call me if you have any further questions regarding this matter.

Sincerely,

William D. Schultz

ADDRESS: 8423 State Highway 71 West

APPLICANT: City of Austin

AGENT: NPZD

(Glenn Rhoades)

ZONING FROM: I-RR

TO: LR

AREA: 2 acres

SUMMARY STAFF RECOMMENDATION:

Staff's alternate recommendation is limited office-conditional overlay (LO-CO) combining district zoning. The conditional overlay will limit the property to 2,000 vehicle trips per day.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

June 15, 2004 – Postponed at the request of the applicant to July 20, 2004 (Vote: 9-0).

July 20, 2004 – Postponed at the request of the property owner to August 3, 2004 (Vote: 8-0, J. Pinnelli – absent).

August 3, 2004 – Approved limited office-conditional overlay (LO-CO) district zoning (Vote: 8-0, J. Pinnelli – absent).

ISSUES:

At the September 2, 2004 hearing, Council requested that the applicant speak with the adjacent property owners and see if a compromise could be reached. The condominium association to the south indicated that they were content with staff's recommendation of LO, and opposed to the applicant's request of LR. The owner of the single-family home to the southwest was originally opposed but has since told staff that he was not opposed to LR-CO, prohibiting service stations. However, at this time staff does not have a letter indicating support for LR-CO.

HISTORY:

On May 15, 1985, Mr. Dement submitted a zoning application for the property, seeking a zoning change from I-RR to LO zoning. At that time, the Oak Hill Area Study was going through the process and the owner agreed to zone the property with other properties affected by the City initiated area study. As evidenced in a City Council case, the Austin City Council approved LO on first ordinance reading. At the time, the subject tract was recommended by staff subject to conditions that limited the property to a maximum floor to area ratio of .25 to 1, a maximum impervious cover of 40%, a limitation of one curb cut on Hwy 71 and compliance with the Williamson Creek Watershed regulations. Although Mr. Dement signed a restrictive covenant agreeing to the conditions, it was misplaced and the case never went forward for second and third readings. Staff therefore has agreed

to initiate this case with the Zoning and Platting Commission's direction, on behalf of the property owner in order to complete the zoning that was approved on first reading in 1985.

Although the original request was for LO zoning, the property owner requested that staff notify for LR, neighborhood commercial zoning for the property. Staff posted and notified for LR. However, according to the Council adopted Area Study, the subject tract was recommended for office use.

At this time according to current Geographic Information Systems (GIS) maps, the entire site is within the 100-year flood plain (see attached flood plain map). However, over four years ago the Oak Hill Regional detention facility was constructed by the City of Austin and the area is going through a reassessment of flood plain impact in this area. The property owner is currently working with the City of Austin to determine if the Oak Hill Regional detention facility has had any affect on the subject tract. The zoning staff is still waiting for information as to whether or not flood plain has been reduced on the property. This case was before Council on October of 2002, but expired due to the study not being completed. The property owner has requested to move forward with the case even though the assessment is not done.

Staff has received a letter from the Valley View Condominium Association to the south in support of staff's recommendation of LO. In addition, they have requested that the applicant agree to a 25-foot setback along the south property line. However, after looking at compatibility, it appears that the applicant will be required to have a 25-foot buffer regardless.

Floodplain Map

City of Austin Infrastructure Support Services

Case C14-04-0071

This map has been produced by the City of Austin as a working staff map and is not warranted for any other use. No warranty is made by the City regarding its accuracy or completeness. Reproduction is not permitted without prior written permission from Infrastructure Support Services, City of Austin.

STAFF RECOMMENDATION

Staff's alternate recommendation is limited office-conditional overlay (LO-CO) combining district zoning.

BASIS FOR RECOMMENDATION

The proposed zoning should be consistent with the purpose statement of the district sought.

Limited Office district zoning is the designation for an office use that serves neighborhood or community needs and is located in or adjacent to residential neighborhoods.

The Oak Hill Area Study recommended office zoning for this tract and staff is being consistent with what was recommended with the study (see attached study). Since the case was never followed through, staff is recommending the original request, which was recommended by Planning Commission and approved on first reading by City Council in 1985.

In the immediate vicinity, the zoning has generally stayed consistent with what was recommended in the Oak Hill Area Study, with the exception of the LR tracts to the west at the intersection of Silvermine Drive and Hwy 290. Although the zoning to the west is LR, it appears that the building is for an office use.

LO zoning would give the applicant a fair and reasonable use of the property. It will potentially service nearby residences and is consistent with other nearby office uses.

EXISTING CONDITIONS

Site Characteristics

The site is currently undeveloped.

Transportation

The trip generation under the requested zoning is estimated to be 900 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics).

There are no existing sidewalks along State Highway 71 West.

There are no bike routes in this general area..

Capital Metro bus service is not available within 1/4 mile of this property.

The Austin Metropolitan Area Transportation Plan calls for a total of 400 feet of right-of-way for State Highway 71. If the requested zoning is granted, then 200 feet of right-of-way reserved from the existing centerline of SH 71 West in accordance with the Transportation Plan. [LDC, Sec. 25-6-51 and 25-6-55)

Impervious Cover

This site is not located over the Southern Edward's Aquifer Recharge Zone. The site is located over the Southern Edward's Aquifer Contributing Zone. The site is in the Williamson Creek Watershed of the Colorado River Basin, which is classified as a Barton Springs Zone (BSZ) watershed. Project applications at the time of this report are subject to the SOS Ordinance which allows 25% impervious cover in the contributing zone.

Environmental

According to flood plain maps, there is flood plain within the project location. There is also Critical Water Quality Zone and Water Quality Transition Zone within the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to providing structural sedimentation and filtration basins with increased capture volume and 2 year detention. Runoff from the site is required to comply with pollutant load restrictions as specified in LDC Section 25-8-514.

Water and Wastewater

The landowner intends to serve the site with City water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility adjustment, or utility relocation are required, the landowner will be responsible for all costs and providing. Also, the utility plan must be reviewed and approved by the Austin Water utility. The utility construction must be inspected by the City. The utility plan must be in accordance with the City's utility design criteria and specifications.

Compatibility Standards

The site is subject to compatibility standards. Along the south property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- Additional design regulations will be enforced at the time a site plan is submitted.

APPROVAL OF MINUTES

2. Approve Zoning and Platting Commission minutes for July 20, 2004 & July 26, 2004, Special Called Meeting.

ZONING AND PLATTING
COMMISSION

APRIL 2, 2002

LATE SUPPORT MATERIAL

MEMORANDUM

To: Betty Baker, Chair
and Members of the Zoning and Platting Commission

From: Gregory Guernsey, AICP, Development Services Manager
Neighborhood Planning and Zoning Department

Date: March 28, 2002

Subject: 8423 State Highway 71 West
Lot 1, Oak Bridge Subdivision, Travis County, TX.

Please accept this memo as a request to initiate the zoning of the above referenced property from I-RR, Interim-Rural Residence district, zoning to LO, Limited Office district, zoning. On May 15, 1985, Mr. Dennis Dement submitted zoning application (including a \$1,675.00 fee) for the referenced property (file #C14r-85-176). During the summer of 1985, the Oak Hill Area Study was in process and accommodated by a massive zoning case. Mr. Dement agreed to zone his property with other properties affected by the City initiated area study and assigned a new case number (file #C14-85-288.194).

As evidenced in a City of Austin case file, the Austin City Council approved on his property for LO, Limited Office district, zoning on first ordinance reading. The zoning was recommended by Staff subject to conditions that limited the property to a maximum floor-to-area ratio of 0.25 to 1, a maximum impervious cover of 40%, a limitation to one curb cut to S.H. 71 West and compliance with the Williamson Creek Watershed regulations. Although Mr. Dement signed a restrictive covenant agreeing to these conditions and had it delivered to City Staff, the zoning case was not scheduled for final ordinance approval and subsequently expired.

Therefore, Staff is requesting the Zoning and Planning Commission initiate a new zoning application, so the Mr. Dement does not incur an additional expense in permanently zoning his property. If you have any questions, please contact me at (512) 974-2387.

Gregory Guernsey, AICP, Development Services Manager

Austin, Texas

Re: Lot 1 of the Oak Bridge Subdivision
In the Plat records of Travis County, Texas
In book 87, page 52A-52B

Dear Mr. Heinsath:

This letter is written and is intended as an official request to change the zoning from IRR to LO on the above described property.

This property was approved as a subdivision by the City Planning Commission on December 9, 1986. The city required specified land usage of all three (3) lots in this three (3) lot subdivision. This was indicated on page 2 of the plat that is recorded in volume 87, page 52B of plat records. This was also indicated on the signature page for Chairman Mary M. Arnold and Secretary J.M. Goodman (see attachment # 1, C8s-86-018). Lot 1 had frontage on SH 71 and was designated as a commercial lot on the approved subdivision plat.

In April of 1986, the Oak Hill area study for rezoning (C14-85-288) of proposed land being annexed by the City of Austin had progressed to the point that certain recommendations had been documented. The study recommended that Lot 1 of Oak Bridge Subdivision be zoned LO as is reported in the attached 5 page study (see attachment # 2). Lot 1 of Oak Bridge is described on E-10, page 3 of the study. The staff recommendation was LO with two (2) conditions: (a) maximum impervious cover of 35%, (b) limited to one curb cut along SH 71. The property described in E-10 on page 3 can be found on the city map dated April 16, 1986, which is located in the City of Austin office.

During the summer of 1987, I was contacted by the City of Austin with regard to the recommended LO zoning of property under the Oak Hill study. The City was told that there would be no objection to LO zoning and we would not initiate a separate zoning request. We agreed to be included in the Oak Hill area rezoning under C14-85-288.194.

The City sent a Restrictive Covenant for our signatures as is indicated on the three (3) page Oak Hill Restrictive Covenants status report dated September 8, 1987 (see attachment # 3). This indication that the Restrictive Covenant was sent is located on page

20
7

3 of the report. The Restrictive Covenant was signed, notarized, and hand delivered to the City of Austin offices located at 301 West 2nd Street. A copy of the covenant is attached to and made part of this letter (see attachment # 4). The hand delivery slip to the City of Austin was addressed to Ida Meehan and was signed for by Carol Kane (see attachment # 5).

In the past, I've met with Gregory I. Guernsey, a Principal Planner with the Development Review and Inspection Department with the City of Austin. Mr. Guernsey has been very helpful in researching the documentation of the zoning status of this property. Mr. Guernsey has also told me that with his knowledge of the facts surrounding the paperwork in this case, it appears that somehow, the Restrictive Covenant was misplaced after being delivered to Ida Meehan. The property was therefore inadvertently left out of the blanket zoning in C14-85-288. Mr. Guernsey has also said that after review of the facts, his office would not oppose the zoning status of the property to be changed to LO.

I respectfully request your review of the documented events and efforts on our part to comply with the City of Austin. We are not asking for any more than what was originally recommended by the City under the Oak Hill area study and by all rights, this property should have been zoned LO years ago. I submit that we did everything requested of us and am asking the Comprehensive Plan Subcommittee and Planning Commission to change the zoning to LO without further application or fee.

I thank you in advance for your immediate attention to this matter. Please contact me at 476-8453, or my office at 1100 Guadalupe, Austin, Texas 78701 if you have any questions.

Respectfully,

Dennis D. Dement

Dear Mr. Heinsath:

Attached is a copy of a letter sent to you February 29, 2000 addressing certain rezoning issues with regard to the above described property. I never received a response to the previous letter.

Please contact me at your earliest convenience or at the least, have one of your staff representatives call or write. This unsolved issue has lingered long enough and needs to be corrected.

I can be reached at 1100 Guadalupe, Austin, Texas 78701, or (512) 476-8453. Your immediate attention to this matter would be greatly appreciated.

Re: Lot 1 of the Oak Bridge Subdivision
In the Plat records of Travis County, Texas
In book 87, page 52A-52B

Dear Greg:

I met with you and Duncan Muir about this property on a couple of occasions back in 1997. It was then that the recommendation to write Chairman Walter Brown was first proposed. For various reasons this was never done, but most recently it has become more important to attempt to get this zoning changed to LO. I have included, for your review, everything that is being sent to Chairman Ben Heinsath. As you will see in my letter, I included that you had previously told me that based on facts and history of this property, you would not oppose the LO zoning. This, of course, was due to the fact that it had been recommended under the Oak Hill area study and had been inadvertently left out. I was not attempting to speak for you, but thought it important to include the research and efforts that had been made in an effort to document the history of this property.

Thank you for the help and courtesy you have shown in the past. Please call with any questions you might have. I can be reached in my office at 476-8453.

Respectfully

A handwritten signature in black ink, appearing to read "Dennis D. Dement", with a long horizontal flourish extending to the right.

RESTRICTIVE COVENANT

OWNERS: A. D. S. General Partnership

OWNER'S ADDRESS: 8407 Highway 71 West, Austin, Texas, 78735

CONSIDERATION: One and No/100 Dollars (\$1.00) and other good and valuable consideration paid by the City of Austin to the Owner, the receipt and sufficiency of which is acknowledged.

PROPERTY: Lot 1 of the Oak Bridge Subdivision as recorded in the Plat Records of Travis County, Texas in Book 87, Page 52A-52B.

Owner of the Property, for the consideration, impresses the Property with these covenants and restrictions running with the land:

1. The Property shall be limited to a maximum of .25 to 1 floor to area ratio as defined by Section 1212 of Chapter 13-2A of the Austin City Code.
2. Maximum impervious coverage of the Property shall be 40 percent.
3. The Property shall be limited to one curb cut along State Highway 71.
4. Development of the Property shall be in compliance with Sections 9-10-171 through 9-10-230 and Sections 13-3-401 through 13-3-475 of the Austin City Code, which regulate site development and subdivisions in the Williamson Creek Watershed.
5. If any person or entity shall violate or attempt to violate this agreement and covenant, it shall be lawful for the City of Austin, a municipal corporation, its successors and assigns, to prosecute proceedings at law or in equity, against such person or entity violating or attempting to violate such agreement or covenant, to prevent the person or entity from such actions, and to collect damages for such actions.
6. If any part of this agreement or covenant shall be declared invalid, by judgment or court order, the same shall in no way affect any of the other provisions of this agreement, and such remaining portion of this agreement shall remain in full effect.
7. If at any time the City of Austin, its successors or assigns, fails to enforce this agreement, whether or not any violations of it are known, such failure shall not constitute a waiver or estoppel of the right to enforce it.
8. This agreement may be modified, amended, or terminated only by joint action of both (a) a majority of the members of the City Council of the City of Austin, or such other governing body as may succeed the City Council of the City of Austin, and (b) by the owner(s) of the Property at the time of such modification, amendment or termination.

All citations to the Austin City Code shall refer to the Austin City Code of 1981, as amended from time to time, unless otherwise specified.

When the context requires, singular nouns and pronouns include the plural.

EXECUTED this 31st day of January, 1987.

re:

CONDITIONS OF ZONING
OAK HILL AREA STUDY
C14-85-288

See Map
dated April 16, 1986

A. The following conditions apply to all property contained within the boundaries of the Oak Hill Area Study, zoning case C14-85-288:

1. No development on slopes with a gradient of 15% or greater.
2. Compliance with applicable watershed ordinances, as may be amended from time to time, except properties grandfathered from the provisions of the Williamson Creek Watershed Ordinance.

For grandfathered properties, the following is recommended:

Compliance with all provisions of the Williamson Creek Watershed Ordinance, as may be amended from time to time, except Sections 203.3(c), (d) and (e) of Part 1 and all of Part 2 of ordinance 801281-W and part of Section 101.2 (b) reading "... or to a development within a recorded subdivision which was finally approved or disapproved by the Planning Commission prior to December 18, 1980 [.]" and all of Sections 103.3 (c), (d), and (e) of ordinance 810319-M.

B. Conditions that apply to properties whose zoning requests were heard by the Planning Commission Subcommittee are stated on a separate list dated ~~March 11~~ ^{April 16}, 1986.

C. The following additional condition applies to all properties zoned SF-6:

1. Maximum impervious coverage of 50%.

D. The following additional conditions apply to all properties zoned MF-1:

1. Maximum impervious coverage of 50%.
2. Maximum density of 13.5 units per acre.

E. The following additional conditions apply to all properties zoned NO, LO, and GO:

1. Maximum impervious coverage of 65%, except where coverage is more limited by a specific condition.
2. Maximum F.A.R. of .25 to 1, except in cases in which a maximum building square footage is stated as a specific condition.

Note: This property has not been annexed by the City of Austin.

3. Staff Recommendation: LO (7.7 acres)

LO zoning is recommended subject to the following additional conditions:

- a. Maximum impervious coverage of 50%.
- b. Limited to one curb cut along S.H. 71.

4. Staff Recommendation: LR (2.96 acres)

LR zoning is recommended subject to the following additional conditions:

- a. No curb cuts within 300 feet of each other.
- b. No curb cuts along Mountain Shadows Drive.

5. Staff Recommendation: CS (2.73 acres)

CS zoning is recommended subject to the following additional condition:

- a. Limited to one curb cut along Old Bee Cave Road and one curb cut along Bell Drive.

6. Staff Recommendation: LR (5.9 acres)

LR zoning is recommended subject to the following additional condition:

- a. Limited to two curb cuts along Old Bee Cave Rd.

7. Staff Recommendation: LO (2.5 acres)

LO zoning is recommended subject to the following additional condition:

- a. Limited to one curb cut along Old Bee Cave Road.

8. Staff Recommendation: GR (23 acres)

GR zoning is recommended subject to the following additional condition:

- a. Limited to two curb cuts along S.H. 71.

9. Staff Recommendation: LO (10.7 acres)

LO zoning is recommended subject to the following additional conditions:

- a. Maximum impervious coverage of 50%.
- b. Limited to two curb cuts along S.H. 71.

10. Staff Recommendation LO (2.05 acres)

LO zoning is recommended subject to the following additional conditions:

- a. Maximum impervious coverage of 35%.
- b. Limited to one curb cut along S.H. 71.

11. Staff Recommendation LO (9 acres)
GR (6 acres)
LR (4 acres)
IP (24.23 acres)
ROW (remaining)

LO and IP zoning is recommended subject to the following additional conditions:

- a. IP use restrictions (See attachment #2).
- b. Maximum F.A.R. of .10 in the Barton Creek Watershed.
- c. Site plan review for tracts adjacent to Boston Lane.

12. Staff Recommendation GO (.68 acres)

GO zoning is recommended subject to the following additional condition:

- a. Maximum impervious coverage of 35%.

13. Staff Recommendation SF-6 (7.6 acres)

SF-6 zoning is recommended subject to the following additional condition:

- a. Limited to a maximum density of 7.5 u.p.a.

14. Revised Staff Recommendation: LR (.91 acres)

LR zoning is recommended subject to the following additional condition:

- a. Maximum impervious coverage of 35%.

Note: Condition applies to any redevelopment of property.

15. Revised Staff Recommendation: LR (.45 acres)

LR zoning is recommended subject to the following additional condition:

- a. Maximum impervious coverage of 35%.

Note: Condition applies to any redevelopment of property.

16. Staff Recommendation: SF-6 (7.7 acres)

SF-6 zoning is recommended subject to the following condition:

- a. Limited to a maximum density of 7.5 u.p.a.

17. Staff Recommendation: CS (9.34 acres)

CS zoning is recommended subject to the following additional condition:

- a. Maximum impervious coverage of 50%.

18. Staff Recommendation: GR (4.8 acres)

GR zoning is recommended subject to the following additional conditions:

- a. Maximum impervious coverage of 35%.
- b. No curb cuts within 300 feet of each other.

Note: Conditions apply to any redevelopment of the property.

19. Staff Recommendation: GR (3.4 acres)

GR zoning is recommended subject to the following additional conditions:

- a. Maximum impervious coverage of 35%.
- b. No curb cuts within 300 feet of each other.

Note: Conditions apply to any redevelopment of the property.

20. Staff Recommendation: GR (2.5 acres)

GR zoning is recommended subject to the following additional conditions:

- a. Maximum impervious coverage of 35%.
- b. No curb cuts within 300 feet of each other.

21. Staff Recommendation: CS (1.59 acres)

CS zoning is recommended subject to the following additional condition:

- a. Maximum impervious coverage of 35%.

22. Staff Recommendation: LR (8.4 acres)

LR zoning is recommended subject to the following additional condition:

- a. No curb cuts within 300 feet of each other.
- b. Maximum impervious coverage of 35 %.

Note: Conditions apply to any redevelopment of the property.

23. Staff Recommendation: CS (5.74 acres)

CS zoning is recommended subject to the following additional conditions:

- a. CS limited to the existing use, or the restricted CS uses identified in attachment #1.
- b. Retention of existing home.
- c. Any development is subject to compliance with the compatibility standards.
- d. A visual screen of at least 6 feet in height to buffer the CS use.
- e. Should subdivision occur, then full compliance with the Williamson Creek Watershed Ordinance.
